

Dear Member(s)

Following recent government advice we are unfortunately placing further restrictions on the use of the club. The club site will remain open but as of **Tuesday 24th March** the Clubhouse, changing rooms and toilets will be closed. The sail loft will remain accessible until **Monday 6th April** when it will also be closed. The club boat shed will be closed and club boats will no longer be available. Safety boats will also be removed from the water.

Mains water to the clubhouse will be isolated and drained down to prevent the growth of Legionella bacteria as the ambient temperature rises towards the spring time.

We politely ask that you refrain from visiting the club site but if you do please ensure you comply with the government's instructions regarding social distancing. We would also like to remind you that you sail from the club site at your own risk so please do ensure you are suitably competent and prepared for the conditions.

I apologise for the inconvenience this will undoubtedly cause. We are in unchartered waters so must navigate our way through this carefully. If you have any concerns about this decision please contact me directly.

Kindest regards

Glenn Barker
Commodore
